

NEWS AND EVENTS

Black Friday Campaigns

This November, Fastbind is celebrating Black Friday with special offers on our ONE perfect binders.

With every ONE binder purchased, we are including a free Easy PUR Cleaning Kit, until December 15th 2025. Some discounts are also available on some of their accessories. For more information, contact us directly or email office@fastbind.com.

Exhibitions this fall:

After the summer, we've resumed our activities in many international exhibitions and trade shows as well as several local events and distributors' open doors. You will be able to meet us directly or see live demos of Fastbind solutions on our distributors' stands and at the following events:

FASTBIND HANDY MINI

THE IDEAL PERFECT BINDER WHEN SIZE MATTERS

Discover the ultimate compact all-in-one solution for professional bookbinding. Fastbind ONE Handy Mini combines flexibility, speed, and simplicity. It is perfect for digital print environments, copy shops, and studios of any size, especially when space is limited.

Compact Power, Endless Possibilities

Produce hardcover and softcover books, tear-off pads, and strip bindings effortlessly. From tiny A6 formats to 325 × 220 mm (A4 and Letter portrait) and from one sheet up to 50 mm thick, the ONE Handy Mini handles every project without adjustments between jobs.

Unmatched Adhesive Versatility

Unlike other binders, the ONE Handy Mini works seamlessly with EVA, PO, metallocene, and PUR adhesives. Its advanced temperature control system ensures consistent, reliable performance, no matter which glue you choose.

Operator-friendly design

Designed and manufactured in Finland, the ONE Handy Mini stands out as the most versatile compact binder on the market. Quiet, clean, odor-free, and energy efficient, its ergonomic layout guarantees safe, comfortable operation in any workspace.

Still, there is no compromise on quality and productivity and you easily bind up to 1000 books per day.

Quality in mind

Built to last for decades, it delivers precision alignment and a perfectly square, strong spine every time, thanks to its innovative clamp and nipping mechanism. The binding is strong, the book is perfect, every time.

Fast Setup. Easy to Learn. Minimal Maintenance.

Be production-ready in under 15 minutes. With the patented Sesame System®, anyone can achieve professional results in minutes without special training or operator expertise required.

Just lift the arm, position your book, lower, and lock the clamp. It's that simple.

There is no need for long cleaning or maintenance. Even with PUR glue: the tank is drained in under 5 minutes and doesn't require long or delicate cleaning techniques or special supplies.

Future-Proof by Design

ONE Handy Mini grows with your business. Its modular design allows you to add new capabilities anytime:

- Hard cover toolkit (nipping bar + hard cover guide)
- Easy cleaning kit for quicker PUR glue tank cleaning and reduced hands-on time (includes a pad, bracket, metal holder and glue collector trays)
