

NEW PRODUCTS

New consumables available soon

Of course, we are also working in improving our line of consumables.

You might have noticed some new endpapers in our catalogue. We now have two new endpaper types: premium endpapers, thicker, whiter and more opaque as well as heavy-duty endpapers. These are oversized, so you have a printing margin and you can then cut them to the required dimensions.

Keep in mind that all our perfect binding endpapers are printable. You just need to print them one side at a time to avoid paper jams (no duplex printing)

Exhibitions this winter:

RemaDays Poland

PTak Warsaw Expo
Warsaw, Poland
January 28-31, 2025
Stand F3 -13

RemaDays is the biggest advertising and printing trade fair in Poland! The 20th edition of Poland's largest advertising and printing fair is an event where industry leaders present the latest printing technologies and innovative solutions in advertising and marketing. The industry congress, which is an integral part of the fair, allows participants to update their knowledge, acquire new skills and learn about the latest trends. We were proud to exhibit our finishing solutions on our distributor's stand, Akonda.

FASTBIND ONE HANDY:

EVEN MORE FLEXIBLE NOW WITH AN ERGONOMIC STAND

Fastbind ONE Handy is the perfect binder that does it all. Compact yet powerful, this all-in-one solutions is built for premium PUR and EVA production of both soft and hard cover books, quickly delivering professional results for short to medium run production.

After its success in Drupa last spring, ONE Handy, our latest perfect binder, continues to set the standard for effortless, high-quality book production. With no set-up time or job-to-job adjustments, the machine is always ready, no matter the cover type, thickness, or format.

Any glue: equipped to run both PUR and EVA adhesives, it's the only binder in its class that handles both glue types with minimal cleaning time and virtually no effort. From softcover paperbacks to premium hardcovers, tear-off pads, and strip-bound documents, the system delivers professional results across all binding styles.

Productivity: Designed and manufactured in Finland, this machine is renowned for its exceptional durability, ultra-low main-

tenance requirements, and consistently reliable performance. Its wide format capability, from miniature 2" × 4" pieces up to 13" × 13", including A4 portrait or landscape, and from a single sheet to 2" thick, gives you true production freedom. ONE Handy binder can produce up to 1,000 books per day with exceptional speed and quality.

Any environment: Its ergonomic design fits in any environment from a copy shop to a print room. It is quiet, safe, clean, odorless, emissions free with minimal power consumption.

New ergonomic stand in option

Our industry-leading perfect binder just became even more versatile. We're excited to announce the arrival of a new optional ergonomic stand, designed to enhance comfort, efficiency, and workspace organization. The stand features a built-in storage cabinet for supplies and smooth-rolling wheels for effortless mobility, making it easier than ever to adapt your production layout.
