

NEW PRODUCTS

New Easy PUR Cleaning kit

Fastbind ONE Sense Ultra is now easier to clean when using PUR adhesive thanks to the new optional PUR cleaning kit.

The kit consists of a 2mm magnetic pad, a bracket, a metallic tray holder and some cardboard glue collector trays.

When using this kit, the PUR cleaning is fast (under 2 minutes of hands-on work), easy and mess-free. All the glue drained from the tank is neatly collected into a tray that can be conveniently discarded into the bin.

Exhibitions this spring:

Print 4 All

Fiera Milano,
Rho, Italy
May 27-30, 2025
Hall 9 Stand E01-F02

The printing and converting industry takes center stage once again at Fiera Milano with Print4All, the sector's flagship event.

With 245 exhibiting companies, from 17 countries, Print4All 2025 reaffirms its international appeal and positions itself as a strategic platform to highlight the innovative capabilities of the printing and converting market, showcase the potential of new materials and digital solutions, and address the major trends reshaping the sector.

We were proud to exhibit our finishing solutions on our distributor's stand, Tosigraf.

FASTBIND ONE SENSE ULTRA:

SMART AUTOMATION MEETS EXCEPTIONAL BINDING QUALITY

Step into the future of digital finishing with the ONE Sense Ultra: the most compact, intelligent, and versatile all-in-one solution for premium PUR and EVA binding.

Engineered for professionals who demand precision and performance, this binder takes automation to the next level.

Equipped with sensors, the ONE Sense Ultra is the only perfect binder in the world that automatically detects the length and thickness of each book. This allows optimizing roughening, gluing, and nipping cycles with pinpoint accuracy. No manual settings, no wasted time, just flawless results, every time.

Bind anything from soft covers, hard covers, pads, or strip-bound books, from miniature formats to A6, A5 and A4+ portrait or landscape and up to 335x335mm, from a single-sheet up to 5 cm thick books in seconds, with zero hassle.

Whether you're producing identical runs or a hundred one-of-a-kind creations, the ONE Sense Ultra delivers outstanding productivity, up to 1,000 books per shift.

When using PUR glue, you are ready in under 10 minutes of warming up in the morning and 5 minutes of hand-on cleaning at the end of the day. With our new easy PUR cleaning kit, you just install the glue tray collectros, press a button and wait for the machine to self-drain all the glue from the tank.

Fast, smart, clean, compact and effortlessly professional, Fastbind ONE Sense Ultra is the new standard in digital binding.

Optional add-ons include a sleek ergonomic stand with built-in storage shelves and smooth wheels for mobility, the hard cover tool kit, PUR cleaning kit and more.

Any cover, any size, any format, any glue: Fastbind ONE Sense Ultra answers all binding needs.
